Levent, İstanbul

PROFILE

Istanbul-based architect with 1.5+ years of professional experience, contributing to cultural, residential and social-housing developments alongside infrastructure projects, from design through on-site construction. Currently Site Architect on the Kent Etiler residential development, built in partnership with Mesa and ASL, supervising structural works, quality control and on-site delivery.

Pairs hands-on site execution — formwork, reinforcement and concrete works, in-situ quality control, and contractor coordination — with construction documentation and high-quality architectural visualisation, applying commercial awareness across quantity take-offs and progress payments.

EXPERIENCE

UMA Infrastructure & Construction

2026 Jun – Present

Site Architect

ISTANBUL

- Site Architect on the Kent Etiler residential development, built together with Mesa and ASL.
- Supervise structural site works — formwork, rebar fixing and concrete casting — checking fabrication against approved drawings and technical specifications before handover.
- Coordinate across project teams and compile quantity take-offs and progress-payment records for completed works.

Protean Construction

Site Architect

2025 Jul – 2026 May

BAKU

- Led on-site architectural supervision on residential-building and road-construction projects.
- Oversaw foundation formwork, steel reinforcement and concrete-pouring works with in-situ quality control and handover to the main contractor.
- Prepared quantity take-offs and progress payments.

Junior Architect

2025 Jan – 2025 Jun

ISTANBUL · REMOTE

- Produced architectural and technical drawings, developing designs from concept to detail.

Başyapı – İnkosa Business Partnership

2024 Sep – 2024 Oct

Intern Site Architect

ISTANBUL

- Provided support for on-site inspections of infrastructure projects, assisting with drawing verification and field coordination.

BINAA — Building Innovation Arts Architecture

2024 Jun – 2024 Aug

Intern Architect

ISTANBUL

- Assisted with architectural project drawings and 3D modelling, producing renders and visualisations for design presentations.

Berko Construction

2023 Aug – 2023 Sep

Intern Site Architect

ISTANBUL

- Gained on-site experience on the construction of a Medipol Hospital building, following structural works and supporting site coordination.

Uysalkan Architecture

Intern Architect

ISTANBUL

2019 Sep – 2019 Oct

– Prepared detail drawings, presentation layouts and material research, supporting facade and interior design studies.
