Levent, İstanbul

PROFILE

Istanbul-based architect with 1.5+ years of professional experience, contributing to cultural, residential and social-housing developments alongside infrastructure projects, from design through on-site construction. Currently Site Architect on the Kent Etiler residential development, built in partnership with Mesa and ASL, supervising structural works, quality control and on-site delivery.

Pairs hands-on site execution — formwork, reinforcement and concrete works, in-situ quality control, and contractor coordination — with construction documentation and high-quality architectural visualisation, applying commercial awareness across quantity take-offs and progress payments.

EDUCATION

Yildiz Technical University <i>Bachelor of Architecture (B.Arch)</i> ISTANBUL	2017 – 2025
Baku State School <i>High School Diploma</i> BAKU	2006 – 2017

EXPERIENCE

UMA Infrastructure & Construction <i>Site Architect</i> ISTANBUL	2026 Jun – Present
– Site Architect on the Kent Etiler residential development, built together with Mesa and ASL. – Supervise structural site works — formwork, rebar fixing and concrete casting — checking fabrication against approved drawings and technical specifications before handover. – Coordinate across project teams and compile quantity take-offs and progress-payment records for completed works.	
Protean Construction <i>Site Architect</i> BAKU	2025 Jul – 2026 May
– Led on-site architectural supervision on residential-building and road-construction projects. – Oversaw foundation formwork, steel reinforcement and concrete-pouring works with in-situ quality control and handover to the main contractor. – Prepared quantity take-offs and progress payments.	
Junior Architect ISTANBUL · REMOTE	2025 Jan – 2025 Jun
– Produced architectural and technical drawings, developing designs from concept to detail.	
Başyapı – İnkosa Business Partnership <i>Intern Site Architect</i> ISTANBUL	2024 Sep – 2024 Oct
– Provided support for on-site inspections of infrastructure projects, assisting with drawing verification and field coordination.	
BINAA — Building Innovation Arts Architecture <i>Intern Architect</i> ISTANBUL	2024 Jun – 2024 Aug
– Assisted with architectural project drawings and 3D modelling, producing renders and visualisations for design presentations.	
Berko Construction <i>Intern Site Architect</i> ISTANBUL	2023 Aug – 2023 Sep
– Gained on-site experience on the construction of a Medipol Hospital building, following structural works and supporting site coordination.	
Uysalkan Architecture <i>Intern Architect</i> ISTANBUL	2019 Sep – 2019 Oct
– Prepared detail drawings, presentation layouts and material research, supporting facade and interior design studies.
